

Illness policy

At Precious Ones we want to do our utmost to keep all children healthy and free from illness and disease therefore we implement an illness policy to help us do this.

If your child becomes unwell in our care we will give you a courtesy call informing you of this and to discuss any action needed e.g. calpol to be given. If your child needs to be collected from us due to illness e.g. is contagious we will call you so you can arrange for someone to collect your child usually within one hour where possible to prevent the illness being spread around the other children.
